

VEGETABLES

Carrots

Fresh Egyptian carrots supplied with strong appearance, consistent grading, and export-ready quality. EGAST's own carrot plantations and dedicated packing line support controlled cultivation, hygienic handling, and reliable packaging for global markets.

Product Overview

Fresh Egyptian carrots supplied with strong appearance, consistent grading, and export-ready handling to meet global market expectations. EGAST owns and operates its own carrot plantations, allowing full control over quality from cultivation to harvest. The company has also launched a carrot packing line to support consistent grading, hygienic handling, and export-standard packaging for international markets.

Carrots — Commercial Types & Export Classification

A structured overview of EGAST's carrots offering, organized by commercial type, seasonal availability, size range, and export packing options.

This format helps buyers compare fresh carrots varieties, review suitable calibers, and prepare more accurate inquiries according to destination requirements and market needs.

Carrot Type	Availability	Sizes / Calibers	Packaging
Soprano Carrots	January to May	Root length 17-20 cm	1 kg, 2 kg, 10 kg, 25 kg, 1250 kg

Information Needed for a Confirmed Quotation

- Destination, volume, shipment window, preferred packaging, required size/caliber, and required export documents.

Planning Notes

- Availability, sizes, calibers, and packing options are confirmed by EGAST's export team before final quotation.
- Final product specifications depend on buyer destination, market requirements, shipment window, order volume, and available packing materials.

Final availability, calibers, packing formats, shipment timing, and export documentation are confirmed by EGAST's export team for each buyer, destination, and order program.
