## Onions — Commercial Types & Export Classification

A structured overview of EGAST's onions offering, organized by commercial type, seasonal availability, size range, and export packing options.

This format helps buyers compare fresh onion varieties, review suitable calibers, and prepare more accurate inquiries according to destination requirements and market needs.

| Onion Type    | Availability                                       | Sizes / Calibers                                  | Packaging                  |
|---------------|----------------------------------------------------|---------------------------------------------------|----------------------------|
| Golden Onions | Fresh: February to June                            | Market-specific sizing confirmed before quotation | 10 kg, 25 kg, 1250 kg bags |
| Red Onions    | Fresh: March to June;<br>Stored: July to September | Market-specific sizing confirmed before quotation | 10 kg, 25 kg, 1250 kg bags |

### Information Needed for a Confirmed Quotation

- Destination, volume, shipment window, preferred packaging, required size/caliber, and required export documents.

### Planning Notes

- Availability, sizes, calibers, and packing options are confirmed by EGAST's export team before final quotation.
- Final product specifications depend on buyer destination, market requirements, shipment window, order volume, and available packing materials.

Final availability, calibers, packing formats, shipment timing, and export documentation are confirmed by EGAST's export team for each buyer, destination, and order program.
